

Nycon Diamond Core Drill Stand

SC350

Ideal for most typical applications with rig-mounted motors up to 14”

- Precision roller guidance with fine adjustment
- Adjustable angle up to 90 degrees.
- Solid aluminum construction with angled bracing.
- Add on column sections (sold separately).
- Crank handle can be used as a wrench.
- Dovetail motor mounting plate included.
- Use anchoring plate and fixing kit for fixing the drill stand with a drop-in anchor.
- Or use vacuum pump and vacuum base (anchoring plate still required) for fixing drill stand without anchor*.
- Use clamp bracket to adapt for use with a handheld drilling motor.
- Spaces for extra clearance available (sold separately)
