

Viega Eco Plus WC carrier

It's not a bathroom.
It's a private collection.

viega

Welcome to the next evolution of toilet systems with in-wall flushing technology by Viega. Through a heritage of innovation and a dedication to precise German engineering, Viega brings us a concealed flushing system that's simple to install, easy to maintain, and reliable enough to withstand the test of time. These flush systems not only exceed the expectations of functionality but they also outshine the possibilities of

modern composition. By teaming up with world-renowned designers to develop a wide range of award-winning flush plates, Viega now gives us the liberty to transform the bathroom space into an exceptional place. Architects, builders, and interior designers not only appreciate the space-saving minimalism and contemporary lines, they're relying on Viega to inspire beautiful bathrooms for centuries to come.

Viega's Water Carrier Systems enable builders, architects and designers the freedom to open up the possibilities and create a signature bathroom. Viega's in-wall flushing technology is the catalyst for transforming a functional space into a place where engineering prowess and award-winning design elevate the bathroom.

Features and benefits

- More efficient water use than traditional systems – exceeds EPA Water Sense standard
- Easier to clean – eliminates the messy, hard-to-clean space at the tank and bowl
- Hassle-free installation – adaptable options, simple assembly and tools/guidance offered from Viega make installation easy
- Easy to maintain – tank and interior can be accessed through the faceplate, making it easy to maintain the system
- Durable, reliable performance guaranteed – highest-quality manufacturing coupled with an industry's best warranty: 10-year warranty for parts and lifetime warranty for frame and tank
- Enables the toilet to fit into tight spaces or anywhere you envision
- Provides six inches more space to use in your design by moving the tank inside the wall
- Opens up more possibilities for design and the space
- More design choices: with more than 40 flush plate options in various finishes and materials. Our systems work with many bowl designs from your favorite manufacturers.
