

## Nycon Diamond Wet/Dry Handheld Drill

### NDT150

A heavy duty 3-speed 1700 W wet and dry drilling motor for drilling up to 6 inch wet, and 8 inch dry. Featuring all metal construction for optimized cooling, durability, and maximum strength.

- Aluminum alloy construction for optimized cooling, durability, and light weight.
- Smart electronic motor management with soft start, overload and thermal protection.
- 3-speed oil bath gearbox with clutch.
- Side handle in-line with spindle centerline for best control.
- LED Indicator clearly indicates load conditions.
- Water supply kit with quick-release water hose adaptor.
- Anti-seize ring to keep core bits from getting stuck on the spindle.
- Vertical level and horizontal level for precision.

Pair with the HHC200 Column when a stable platform is needed.

#### Specs

No load speed per min 930/1520/4270  
Rated load speed per min 560/910/2560  
**Power:** 1700 W / 15A (110v) (50-60hz)  
**Max Capacity** 6" wet / 8" dry  
**Neck Diameter** 2.4"  
**Spindle** 1-1/4" UNC Male  
**Weight** 14.1lbs

Wet and dry connections included
